

C3P AND NASA TECHNICAL WORKSHOP

PARTNERING FOR ENERGY AND ENVIRONMENTAL STEWARDSHIP

November 7, 8 & 9, 2007 • Peniche, Portugal

Mark Your Calendars!

The Portuguese Center for Pollution Prevention (C3P, Centro Para Prevenção da Poluição) is holding a Technical Workshop on November 7, 8 & 9, 2007 in Peniche, Portugal. An exciting program is being planned that will include presentations, informal discussions and demonstrations on the following technical topics.

Pollution Prevention / Regulated Chemicals: Discuss on EU and US restricted chemicals; advances in materials and processes for coatings, coating removal, cleaning, and green chemistry; advances in materials and processes for lead-free electronics; reduction of volatile organic compounds (VOC) emissions.

Environmentally Sustainable Islands

Renewable Energies

**Groundwater Vulnerable Zones and
Remediation**

Stewardship & Best Practices

Do not miss this opportunity to hear distinguished guest speakers and workshop leaders present a wealth of information and ideas on environmental and energy concerns relevant to European and U.S. engineers and scientists.

Who should attend?

This workshop will be geared toward environmental or energy professionals from Europe, United States, and elsewhere affiliated with government agencies as well as large and small businesses.

Workshop information

The workshop will take place at the [Escola Superior de Tecnologia do Mar de Peniche](#) Peniche, Portugal
